Fw: Revised approval letter for the Texas program revision for the Goliad aquifer exemption

Hi Joe,

Can you show Leslie the draft letter, and send Region 6 our comments? William Honker

Mike, et.al.,

I gave the draft a quick review and had the following thoughts:

- We may want to do a quick recap of the issue in the opening paragraphs of the letter TCEQ sent
 May 2011 request; we said we couldn't approve in May 2012 letter; subsequent discussions resulted
 in a significantly revised request from TCEQ dated ______.
- We may also want to recap the additional info we received from UEC following our May 2012 letter to TCEQ.
- On the monitoring well issue, I'd suggest some language like "EPA takes this action with the
 awareness and expectation that UEC will provide funding for the Goliad County Groundwater
 Conservation District to install two additional monitoring wells and and perform monitoring for an
 extended period on these wells. These wells will be located between the exempted portions of the
 aquifer and the wells currently used by St. Peters Luthern Church."
- Let's make sure the exempted areas are adequately described so there are no future questions about where the boundary is.

Bill
